

## On the Subject of Hitman

Welcome to the world of Assassination.

Good morning agent. Your objective is to identify and enter the name of the target to eliminate them. These targets are all from the Hitman™ series, which include Hitman, Hitman II, and Hitman III. Use the left and right arrows to change the target name. Match the name with the target on the right and press “Fire” to kill the target. We are watching you to make corrections as necessary. But surely it won't have to come down to that, right Agent? I will leave you to prepare. Happy hunting.
